ABSTRACT

This government publication provides a partial listing of plant visits available to business groups, especially international visitors. Each listing gives a short description of the industry, the address, visiting hours, person to contact, and a telephone number. The list is arranged alphabetically by state and city. Included is an industry classification index. Instructions for arranging plant visits are provided in the introduction. (MA)

INTRODUCTION

As part of the program to welcome international visitors to the United States, the United States Travel Service has compiled this listing of plant visits from information submitted by State and Territorial Travel Offices. It does not represent a complete listing and in no way reflects upon plants that by inadvertence have been omitted. Revisions and additions to this list should be sent to the United States Travel Service, U.S. Department of Commerce, Washington, D.C. 20230.

This list is arranged by State and City. For those who are interested in locating plants of a particular industry, it is also classified by industry. The plants of an industry may be located by referring to the page numbers shown in the Industry Classification Index and then by finding the appropriate industry code number on those pages.

In all cases appointments for plant visits should be made in advance, either by telephone or letter. Call or write the official listed. It should be kept in mind, of course, that retooling operations, vacations and emergencies may make it impossible for a plant to receive visitors at any given time.

Business groups planning visits to the United States should, when applying for their visas at American Embassies or Consulates, consult with the Commercial or Economic Officers. Not only can the staffs at the Embassies and Consulates be helpful in planning business trips but, after plans are finalized, they can announce your visit to business firms and organizations in the United States. Also ask about the Department of Commerce Commercial Invitation, which serves as a letter of introduction to U.S. officials and businessmen.
